Dear Luis,

Thank you for your letter of May 7. Our guest room has now been fixed up in a more sophisticated way when when you were staying with us last time. We hope, therefore, that you will feel even more inclined to stay with us this time. Please let us know your Flight Number and Air Line. I suppose that when you say 12 am, you mean Sunday noon.

A week ago we got an addition to the family, our first son, named Niels. I hope that he will not disturb your night's sleep too much.

I am anxious to discuss many problems with you. Progress has not been going very fast but two of our guests here are doing very interesting micro biological studies on galactose mutants.

Best regards,

Sincerely,

Herman M. Kalckar
