Dear Dr. Leloir:

I am sorry to hear of your decision, but appreciate the reasons for it. Let me simply say that I would have been deeply honored and pleased if you were to become our laboratory neighbor.

I would like to join with my colleagues in asking you to consider again the simple possibility of coming here for a year or so as a "Guest Investigator" of the Hospital, to occupy Dr. Lipmann's quarters. You might think of such an arrangement as a sabbatical year from your own laboratories.

With best wishes, and in the hope of your reconsideration of this alternative, I am

Sincerely yours,

Paul Zamecnik
